OUR EVOLUTION

WHAT I LEARNED

I learned a lot from Lillian Donahue. She takes risks and isn't afraid to get the story that everyone else is too scared to get. But I also learned that it's okay to be overwhelmed. When I am filming I get really overwhelmed and she told me that she gets overwhelmed too. It was nice to hear that even the professionals aren't perfect all the time. One of the most interesting things I learned about her is that she films and edits everything she makes by herself... Even in the middle of a hurricane! She is quite an amazing reporter and I aspire to be like her one day, fearless and successful.
